Thank you for joining us! If you have downloaded one of our marketplace products, bundles or free products, you may be wondering how to use them! In this guide, we will provide links to relevant tutorials which help you make the most of your new product/s.

If you wish to search for any tutorials not in this guide you can do so online here: [Design School](#)

Tutorial Guide

1) How to Unzip a file on my PC

Often our files are downloaded as zip files. These will usually go to your downloads folder. Please follow the guide below to extract your products ready for use.

2) How to install a Font on PC or Mac

Installing a font is easy! The tutorial below explains in depth how to install a font on your PC or Mac

https://designbundles.net/design-school/how-to-install-fonts-windows-mac

3) My font doesn't look the same as the preview image, what is wrong?

Some fonts come with extra's which can be accessed to change the appearance of the font and style. These are called 'extra glyphs' or alternates.

To access the extra glyphs there are a couple of extra steps. We have two guides which can help you achieve this:
